

THE NEWS.

The old adage that misfortunes never come singly, is beautifully illustrated in our dispatches this evening, inasmuch as the ink on the paragraph announcing the disaster to our arms in Western Louisiana and the utter failure of Banks' expedition, is not permitted to get dry before we have to record a defeat at Plymouth, North Carolina in which we lose from 2,000 to 2,500 men and a large number of guns, ammunition, provisions and stores. We have this to comfort us about this news, it comes through rebel sources, and if their old habit of lying has not failed them, there is a chance to hope we have not been badly worsted after all.

General Banks' chances for the Presidency, if he ever had any, we suspect are now buried with his poor boys in the vicinity of Pleasant Hill.

In the mean time, let us hope that the ominous silence that now broods over the army of the Potomac, is the calm which precedes the tempest, and that the hero of Fort Donaldson and Vicksburg will soon give us news that will cure the smart in the nation's heart, caused by recent disasters and scatter on the wings of the wind these gloomy and foreboding clouds that now lower in our horizon.

It will be seen by our dispatches that Gen. Grant has won the sword at the fair, as we hope he will soon win Gen. Lee's on the Rapidan.

Idaho.

Nearly all our State exchanges bring us accounts of enthusiastic individuals and companies setting out from their localities for the new Eldorado that lies somewhere beneath the shadow of the Rocky Mountains. Single men and married men, men of business and men of no business, the young and the middle aged, some rich and some poor, all classes of community are contributing to the numbers of that eager procession who think they see the richness of the Ophi that is to be, reflected in the Western sky. But we greatly fear it is the Pike's Peak humbug over again—that oratory mine of gold extracted from the fabled mines of Idaho will require two ounces of silver to make it available. Gold is there, no doubt, but does it lie within the reach of every single arm that may be stretched forth to grasp it? We think not, and there are the best of reasons for believing that not one in twenty of those who now press forward to this new land of promise will ever find their anticipations realized, or their fortunes made from the gold mines of Idaho.

Speaking of this new gold fever, the *N. X. Evening Post* calls to mind the excitement created in that city some twenty odd years ago, by the reported discovery of large deposits of gold bearing quartz rock in the mountains of Virginia. Specimens of the rock were exhibited on Wall Street rich enough to yield twenty-five thousand dollars per ton. Companies were formed whose stock leaped at once to fabulous prices. One of the holders of a large amount of what was reported to be the best stock, considered himself so rich that he not only refused to dispose of any portion of his interest at any price, but declared that the use of silver-ware in his family was "played out" and that thereafter he should use nothing but solid gold. In less than thirty days, the bubble burst and his stock was not worth a dime's share, while his family got along tolerably well with vulgar silver-ware for common use.

The *Post* tells this story for the benefit of all those whose fervid imagination runs away with the multiplication table in their estimates of what they are going to accomplish in the far off mines of Idaho.

The deplorable condition of things in our neighboring city of Madison, may be inferred from the following paragraph, clipped from Friday's *Journal*:

"Yesterday afternoon, we saw Chief Shealey with a warrant for the arrest of three boys named Thomas L., Wm. K., and John D., the oldest not being over eleven years."

If such a state of depravity exists among the children, what must be the condition of morals among the adults?

REVEREND CALVIN FAIRBANKS, who was implicated with Delia Webster in enticing slaves from Kentucky several years since, and who had served twelve of the sentence of fifteen years in the Frankfort Penitentiary, was pardoned by Lieutenant-Governor Jacobs while performing Executive duties during Governor Bramlette's absence from the State.

A woman recently, in Detroit, induced her daughter, a girl of about fourteen years of age, to marry a soldier, that she might get control of his bounty money. After the marriage ceremony was over, and the mother-in-law had obtained the money, the young girl ran away to the County Poor-house rather than live with her new husband.

A cotized preacher within our lines recently felt constrained to preach against the extortions of the sutlers, from which his flock had suffered. After much deliberation he announced his text as follows: "Now be serpent was more suttler than any beast of the field which be Lord God has made."

Postmaster John Lockwood has resigned, and it is expected C. L. Sholer, of the *Sentinel*, will be his successor. Certainly he will be, if the right man is put in the right place.

The seamstresses of Madison are about to strike for higher wages.

STATE NEWS.

Speaking of a large number of persons leaving for Idaho, the *Sparta Eagle* says: "Our business interests will keenly feel this exodus, for these names comprise some of the most active and energetic business men our village can boast of—The *La Crosse Democrat* says: Last night the steamer *Chippewa Falls*. Capt. Able Hutchenson, with one hundred and thirty passengers, and the steamer *Cutter*, Capt. Frank W. Moore, with one hundred and fifty-seven passengers left this city for Fort Benton. These two boats have between them here and Alton two hundred and eighty-three other passengers who have secured tickets. The boats will be well loaded with passengers and freight, and as they are in perfect order, will no doubt, make a quick and profitable trip. The *Pacific*, Capt. D. S. Davidson, will start next week with a large load.—The *Beaver Dam Citizen* notes the fact that within the last month from 15 to 20 carpenters have left that locality for the South to work for the government, and more are going, which will of necessity make house builders very scarce; and should there be much building, and there undoubtedly will be considerable, it will be extremely difficult to get help to do it. Even now it is with the utmost vigilance that men can be had to do to other work than building.—The *La Crosse Democrat* says that H. L. Beach has sold his interest in the Westcott House to Capt. Baxter of Chicago, who, to-day, came out as proprietor.—According to the *Appleton Motor* the new woolen factory of Mr. G. W. Spaulding, went into operation yesterday. It is undoubtedly the best establishment of the kind in the west. No expense has been spared. The best machinery, with the latest improvements, has been wholly imported from the East and erected under the supervision of Mr. G. S. Baker, who has spent most of his life in a New England factory of the first class, and who is to remain as superintendent of the carding, weaving and spinning rooms.—The *Daily Wisconsin* says that night before last, and again yesterday morning, a girl, dressed in male attire, presented herself at the recruiting office opposite the Newhall House, as an applicant for enlistment. Her sex was suspected, and she was advised to go home and conduct herself as a woman should.—The *Wisconsin* farther states that the lot for the new Music Hall has finally been purchased by the Musical Society, and the subscriptions for the building amount to \$21,000. They want \$10,000 or \$15,000 more.—The *Appleton Crescent* is of the opinion that no more profitable investment can be engaged in than the manufacture of turpentine from the old pines and stumps in our lumber region, Shawano and Oconto counties. Parties in Maine are making fortunes at it. Here the field is much larger, the price of turpentine much greater, and the home demand three as great.

—The same paper has information that thousands of acres of land in the Wisconsin Pinery, belonging to Eastern holders and who are too stingy to hire an Agent, have been stripped of nearly all the valuable timber during the past winter.—The *Grant county Herald* states that winter wheat in that vicinity has not sustained material damage.—Capt. Richard Bean was been temporarily appointed Provost Marshal of 1st District, in place of Capt. Tillapaugh dismissed.—The jury in the case of Bowen indicted for robbing the mail, at Ripon, was out all night, without finding a verdict, and were discharged, and there is no probability of their agreeing. We understand it stood six to six.—A portion of the dam at Stevens' Point has been carried away by the ice, which will prevent a large portion of the upper river lumber reaching market this year. So says the *Wood County Reporter*. Fox River is clear of ice, and the steamers are making their regular trips.

THE NATIONAL BANKS.—A letter from the bankers of Albany to the comptroller of New York, signed by Rufus H. King and others, closes thus: "These national banks live and move and have their being on treasury paper. Their plates and paper and printing are given to them. Money which the government is borrowing at high rates of interest is deposited with these banks without interest. They are also exempt from taxation, which is equal to 2 1/2 or 3 per cent. more."

But all these advantages and largesses heaped upon them by the Secretary are scarcely one-third in comparison with the Government has surrendered to them. They can circulate three hundred millions upon Government 6 per cent. stock, payable in gold, which is more than 10 per cent, or thirty millions a year clear profit, and for which the people are to be heavily taxed. This vast amount could be saved by the issue of Government legal tenders—a better currency—and the people relieved from a tax of thirty millions a year, given to foster and build up the most stupendous, ill-devised and alarming system of banking which the world has ever known.

—General Fremont's organ, *The Nation*, urges the friends of that gentleman not to go to the Union Convention at Baltimore, but to nominate him at the Cleveland Convention in May, as a candidate outside and independent of the Baltimore Convention. There are knaves as well as fools at the bottom of this movement. All the copperhead journals are in favor of it, and General Fremont himself says nothing against it.—*Albany Evening Journal*.

—When Dr. Skinner was asked what was the greatest sermon he ever heard, he replied: "It was Dr. Beecher's sermon on God's government." Dr. Skinner said: "How long did it take you to write that sermon?" Dr. Beecher replied: "Forty years!"

News from Stonewall Jackson.

Andrew Jackson Davis, (the seer) in the *Herald of Progress*, of this week, makes the following important (if true) announcement: "The most important intelligence received recently is to the effect that, after six more battles, two of them to be hand-to-hand encounters, the war will be over, and peace declared under the Stars and stripes. Stonewall Jackson is positive that all this will come to pass before the next harvest is gathered to the granaries. Gold will take the downward track in May and July. Government credit will be firm for ten years after peace is declared, when another war with Old England is probable. France will be the first to receive punishment from America. A republican form of government will soon be guaranteed to the Southern States. "Butler and bomb shells" is a better cry for Abolitionism than "Fremont and Freedom." Forensic pluck, not men and propositions, are in demand. General Butler and Jeff. Davis are the best practical Abolitionists. Others are talkers and hangers-on."

DEMOCRACY CLASSIFIED.—Petroleum Naby classifies the various cliques in the Democratic party as follows:

- 1—Them ez would nominat Mick Lellon on a war platform.
- 2—Them ez would nominat Mick Lellon on a peace platform.
- 3—Them ez would nominat Vallandigham on a peace platform.
- 4—Them ez would nominat Vallandigham on a war platform.
- 5—Them ez would favor the war of slavery could be let alone.
- 6—Them ez is opposed to the war in any shape.
- 7—Them ez is in Kanady in consensu us the drat.
- 8—The betwixt and betweeners, who er ashamed us our party and aint sutable for any other States. They are with Democracy as the Michiganers is with the itch—wood like 2 gic rid ut it, but can't.

WHAT COPPERHEAD MEANS.—For the benefit of those who do not find Copperhead in the Dictionary we give the following analysis: Conspiracy. Opposition to the war. Peace on any terms. Purity. Fidelity to the Union. Recognition of the U. S. A. Hatred of the Government. Enraged sympathy with traitors. A narchy. Disloyalty.—*Bing. Rep.*

RATIO OF PROFIT.—The New Hampshire Journal of Agriculture says in an article upon corn culture: "The ratio of profit in cultivated crops, is, we imagine, not very clearly understood by many. Or if understood is not kept in view. We estimate 45 bushels to the acre will pay twice as much profit as 30 bushels to the acre. Add fifteen bushels more, which would make 60 bushels, and the profit is three times as much as at 30 bushels. So that the man who raises small crops is always at the short end of the lever. Or at any rate, is working his lever without a fulcrum, which is up hill business at best."

ENIGMATICAL.—Dimock's good advice to insurers must have puzzled those who scanned his notice in the local columns. "Deep in the old paths," should have been "Keep in the old paths." Sound counsel, which should be followed.

THE STEVEN'S HOUSE.—Mr. Miltimore, the former landlord of the Steven's House, has fitted it up in good style, and is now ready to entertain guests. Under his management in times past, it has been a favorite hotel, and in his hands will probably prove so again.

DANCING SCHOOL.—Prof. Martino, having concluded to go on with his dancing school at Hyatt House Hall, will hold a session of it this afternoon at 4 o'clock and this evening at 7 1/2 o'clock; also to-morrow afternoon and evening at the same hours. This is an opportunity which very many will doubtless avail themselves of for learning this polite accomplishment.

WHERE'S THE GAS.—The darkness last evening was Egyptian in its density, and not a glimmer from a street lamp was to be seen. Those who ventured out, groped their way about as best they could, wading in the mud now, again stepping off the sidewalk with a suddenness which tested the strength of their necks, meanwhile muttering anathemas at the chap who should have lighted the lamps and didn't. Give us light.

SERIOUS ACCIDENT.—On Saturday evening between eight and nine o'clock, a very serious accident occurred at Sutherland's mill, on the race. Barney McCann had gone to mill for some feed for his cow, but had been there but a short time, when his wife followed him, and went up to the second story of the building, where an employee of the mill and Barney were filling up the feed. As she stood looking at them, she backed up so near the upright gearing of the belt shaft, which was in motion, that her clothes were drawn in and she was at the mercy of the machinery. As soon as she exclaimed that she was fast, a young man named Bonesteel, who was near, ran down stairs and shut down the gate. But before the machinery was stopped, the woman had been drawn steadily backward until her hips were compressed into a space of about ten inches, between the shaft and a bin, and her body just below her shoulder blade was so badly cut by the gearing as to lay three of her ribs bare. After her clothing had been clear of the machinery it took the united strength of two men to pull her from the position into which she had been drawn. Her injuries are very serious and may prove fatal.

FROM WASHINGTON. Washington, April 23.—The House went into committee of the whole for the consideration of the internal tax bill. An amendment, making the tax on R. R. iron four dollars instead of three per ton, was rejected on motion of Morris, and the tax on R. R. iron was made two dollars per ton. Griswold offered the following amendment which was agreed to, provided that the terms shall apply only to rails manufacturing, and not for new iron, on which a duty of 50 per cent. was reported. An amendment was agreed to on taxing them one dollar a ton for coal of California. It was moved to amend by making the tax of wines 3 cts. instead of 5 cts. per gallon. He said the tax was excessive, as the value of much of the new wine was only 12 to 15 cents per gallon. Rejected. California was added to the articles subject to taxation, a duty of five per cent. being put on them. Amendment was agreed to exempting wine made from currants, rhubarb, or berries. On all other manufactured wines the tax was fixed at 50 instead of 25 cents per gallon. Tax on furs raised 10 per cent. On custom made article of wearing apparel tax was increased to 5 per cent. On diamonds, emeralds, precious stones, and imitations thereof, and all other jewelry, of 10 per cent. instead of 5 was agreed to.

Morrill moved to increase the duty on Caudish, plug, twist and manufactured tobacco not otherwise provided for, to 30 cents per pound, which was agreed to. On cigars valued at over 10 dollars and under 20 dollars per thousand, the tax was increased to 8 dollars per thousand. Valued at over 20 and under 40 dollars per thousand, tax increased to \$15 per thousand.

Mason offered a new section to the committee, after the section providing for a tax of one per cent on all sales of real estate. Amendment rejected. Committee here arose and at 5 o'clock the house adjourned.

WASHINGTON MATTERS!

FROM THE SOUTH.

New York, April 25.—*Herald's* special from Army of the Potomac, 24th.—The Richmond *Sentinel* of the 22d, says the following dispatch has been received by Gen. Bragg:

Plymouth, N. C., April 20.

General Braxton Bragg:

I have stormed and carried this place, capturing one brigadier, 1,600 men, stores and 25 pieces of artillery. (Signed) R. F. HOKE, Brigadier General.

A telegram was also received by the President from Col. J. Taylor Wood, dated Rockymount, 21st, giving further particulars of the capture of Plymouth by the forces under Gen. Hoke, with naval co-operation. He says about 2,500 prisoners were taken, 300 or 400 of them negroes. Also, 30 pieces artillery, 100,000 pounds meat, 1,000 bbls. flour, and a full garrison outfit. Our loss was about 300 in all. Col. Richmond was killed, and two gunboats were sunk, another disabled, and another steamer captured.

ARMY OF THE POTOMAC.

Herald's Special from the Army of the Potomac, 24th.—I have Richmond papers to the 22d inst. From the Lower Rappahannock a citizen brings the Richmond *Sentinel*, with information in advance up the Rappahannock on Wednesday as far as Bontrare's Wharf, of eight gunboats and one transport. They landed three hundred men at Bontrare's Wharf, which is 10 miles below the Rappahannock. This is supposed to be the advance to Burnside's expedition as reported in Fredericksburg yesterday. A fleet of vessels gunboats and transports were at the mouth of the Rappahannock. It is also rumored that the enemy are landing pontoon bridges at Aquia Creek.

FROM NEW ORLEANS.

New Orleans, April 23.—Despatches from New Orleans state the destruction of cotton on the Red River, by rebels, is not over 7000 bales. A fight between 50 union soldiers and 75 rebel troops, took place on the plantation of Ex-Governor Johnson. Rebels repulsed, 20 prisoners and \$10,000 worth of smuggled goods were captured.

AFTERNOON DISPATCHES.

Call of Western Governors!

WANT TROOPS FOR GARRISONS!

Veterans Must Go to the Front!

Farther from Banks' Dep't!

A Line from General Butler!

FROM FORTRESS MONROE.

Fortress Monroe, April 24th, via Baltimore, 25th.—An officer just arrived from Hanoke Island, makes the following report:

Gen. Wessell surrendered Plymouth on Wednesday the 20th after 5 days fighting. Our loss is 150 killed and 2,000 prisoners. The rebel loss is 1,500 killed.

BALTIMORE, April 25.—Reports here, said to have been brought in by a colored sutler, are, that the colored troops at Plymouth, after the surrender, were murdered by the rebels. Rumor probably untrue.

FROM BURNSIDE'S ARMY.

WASHINGTON, April 25.—Gen. Burnside has published a circular, dated Headquarters 9th army corps, Annapolis, saying that this army is being on the eve of a movement. No application for furloughs will be granted. It is stated that Burnside has applied for more time to get more men. Another report states that these troops moved to-day.

FROM CINCINNATI.

CINCINNATI, April 25.—General Sickles' Gorden, Granger and Kirmann are in the city. General order No. 11, Adj. General's office, Columbus, April 25th, declares every member of the national guard must report in person or by substitute called into active service, or be treated as a deserter. It is reported that Gov. Morton takes command in person of the militia of Indiana.

FROM CINCINNATI.

CINCINNATI, April 24.—Gov. Brough has issued an order calling the national guard of Ohio into active service for one hundred days. They will be clothed, armed, equipped and paid by the United States Government, and will report for duty May 2d.

The order says our armies in the field are marshalling for a decisive blow, and the citizen soldiery will share the glory of the crowning victories of the campaign, by relieving our veteran regiments from post and garrison duty to allow them to engage in more arduous duties in the field.

Gov. Morton issued a proclamation to the people of Indiana, saying the Governors of Ohio, Illinois, Iowa, Wisconsin and Indiana, offered to raise for the General Government, 55,100 men for a period of a hundred days, to perform such military services as may be required of them in any State. The Governor calls for twenty thousand volunteers, and says the importance of making the present campaign successful and decisive is not to be overestimated, and feels confident that this will be promptly and freely responded to.

FROM FORTRESS MONROE.

BALTIMORE, 21.—The *American* having copied from the *N. X. World* what was represented to be an extract from a letter from General Butler, threatening to resign on account of the appointment of General Smith to the command of the Army of the Peninsula, has had the following dispatch from General Butler.

FORTRESS MONROE, April 23, 1864.

To the Editor of the Baltimore American: My attention is called to the article in your paper, headed "A Protest" from Gen. Butler, which supposes that I have written the silly paragraph therein contained. I have written no such letter. It is not the kind of a letter that I am accustomed to write. There has been no shadow of occasion for it. All and more than all the consideration to which I am entitled has been shown me by the Government, in relation to my present command. I should not break my habit of not contradicting newspaper reports, save that if not contradicted, it may affect others than myself.
